NEW

FALL THERMAL WORKSHOP

**SEMI-THERM
THERMAL TECHNOLOGIES WORKSHOP**

DATES: Nov. 4 - Nov. 6, 2019

**LOCATION: Microsoft Corporate Conference Center
Redmond, WA USA**

HOST HOTEL: Seattle Marriot Redmond, Washington

**Abstracts for presentations may be submitted to: Dave Saums,
General Chair Email: dsaums@dsa-thermal.com**

Please check back for more details.

Relevant topics in thermal management for electronics presented at this annual advanced technology workshop include:

- Advanced thermal interface materials developments
- Developments in CTE-matched thermal composites
- Single- and two-phase liquid cooling systems developments
- Applications of vapor chambers and heat pipe assemblies
- Commercial and military/aerospace thermal solutions
- Developments in power semiconductor thermal solutions
- Innovations in CFD thermal modeling tools
- Keynote presentations on significant systems trends and advances

Student Abstract Competition

A student abstract competition will also include cash stipends for winning graduate and undergraduate student presentations
